Comments: Thank you for this comprehensive plan for the AZNST. I have been on the AZT many times, and as an Arizona native I'm proud to have this in my home state and all the beauty it has to offer. I'm glad to see the scenic and cultural resources protected within the planning corridor and would like to see even more protections. I also support the acquisition of state trust land to ensure the entire trail is protected in the future. Finally, thank you for specifying the prohibition of motorized vehicles- including e-bikes in the plan. I appreciate the opportunity to comment.
