Comments: I am vehemently opposed to allowing motorized use of any kind in the Rattlesnake recreation area. In the past 3 years, usag has doubled, people are rude, and no one follows the rules anymore. Adding motorized use will completely destroy this beautiful area which already sees too many people. What about the wildlife? Moose, bears, deer, elk, bighorn sheep....they need the protection. There are plenty of places where motorized users can go. Don't ruin the Rattlesnake.
