Comments: I am grateful that the proposed action retains the 1986 Recommended Wilderness. Thank you!

Below are some Plan alternative suggestions for current Wilderness or possible new Wilderness designation. Yes, I love wilderness a toast to another 60 years of our Wilderness Act!

Please continue Wilderness designation:

1) the Hoodoo with current boundaries, including the Great Burn (one of the wildest areas in the Lower 48 providing vital habitat for wolverines, mountain goats, grizzly bears, and other sensitive species), 2) 1986 recommended Wilderness for the Lolo Creek and Quigg/Slide Rock Areas.

Hoped for recommended Wilderness designation in proposed Plan:

- 1) the Ward Eagle and Meadow Creek-Upper North Fork roadless areas to protect the areas incredible wild character,
- 2) the Stony Mountain roadless area, which is also important for the Rock Creek watershed,
- 3) the Cube Iron-Silcox area is a wild roadless complex that provides excellent connectivity between the Cabinet, Bitterroot, and Mission Mountains.

Lastly, I support the Blackfoot Clearwater Stewardship Act. Please include all of the plan components of the collaboratively created agreement reflected in the Forest plans analysis.

Thank you for the opportunity to provide feedback and for all the work that's gone on so far on this revision.
