Comments: I support the proposed Eagle Vail Trail Extension. Offering an official trail that will be properly built and maintained provides wonderful, legal, trail access to the Eagle Vail Community, immediately accessible to those on the West end of EV. This trail benefits the neighborhood of eagle Vail in addition to the community as a whole. Connecting trail systems increases access for the entire community. This connector will give cyclists, runners and hikers a safe way to connect trails and create epic routes to explore, all while staying on dirt. I look forward to seeing this project progress.
