Comments: I am writing to express my support of the extension of the EagleVail trail. The existing social trail in the area is well-traveled and significantly established. The EagleVail community and surrounding communities use and enjoy this social trail for hiking, trail running, and mountain biking.

This project will meet the demand of the community by creating a legal and sustainable trail that stays off private property and eliminates future social trail creation.

I believe the project's benefits largely outweigh any potential environmental impacts in this already highly disturbed area. The benefits of a sustainably built trail including, wellness opportunities, increased user safety and experience, and mitigation of the impact of spider-webbing social trails meet a significant community and environmental need.
