Comments: Please restrict motorized access into Saint Regis Basin. I oppose FS 18591 as a Semi-Primitive Motorized setting. Please consider it as a Semi-Primitive Non-Motorized setting to lessen snowmobile conflict.

Overall I believe it is important to preserve the quiet solitude of the backcountry. Most people that enjoy spending time in the backcountry are there to take in the rugged nature of the forest. The sound of engines in the forest can be quite jarring to folks looking to enjoy the area in its natural state. That peacefulness of these spaces are a big part of why so many recreators are out there and I think we should preserve these quiet spaces as much as possible.
