Comments: USFS,

Thank you for considering this extension. We are residents in Eagle-Vai and regularly use the EV trail and Everkrisp trail to access Minturn from Eagle -Vail primarily for recreational purposes. It is well maintained and respected from our vantage point. This West addition would be and incredible asset for all locals and visitors to access the beauty of the valley.

Another benefit would be the option of staying off roads and paved trails which can be very busy with cars, other bikes, E-bikes, and other pedestrians. If environmental impact is minimal, I think this extension would have an abundance of benefits.
