Comments: I have already provided comments last year that this project absolutely needs to move forward, the sooner the better!! I will reiterate that to stop virtually all forest mgmt projects is a travesty, one that is endangered our lives, homes, property, livings (jobs)!! 'We The People' should be counter-suing these environmental organizations that are responsible for this malfeasance!! We already protect and set aside vast acreage that cannot be disturbed. There is no sane reason to continue to place further restrictions, to place 'mother earth' on some 'godly-pedestal' to the detriment of human beings! Period, end of story!!
