Title:

Comments: Excited to see a revised forest plan. As a mountain biker I'd love to see access preserved to Heart Lake, Carlton Ridge, and the Cube Iron mountain area. These are special places and offer some of the best backcountry mountain biking in the Lolo NF. I understand the desire to keep these places wild, but their distance and ruggedness of the trails does that already. Please keep access to these awesome places for a true backcountry adventure mountain bike ride!
