Comments: These Forest Products! Mushrooms,Boughs,Greens,Huckleberries needs to be managed along with all the Buyer That Come here to purchase the forest Products! I would like to see them show more than one ID to be able to buy permits. I would charge a buyer a licensed fee. I would like to see this managed. It is a resource and should be treated as such! If you need help making rules I have alot of experience and we can all work together. I do not want to get permission from private land owners to do this. I want to see the public land Managed.
