Title:

Comments: Regarding the Heart Lake Loop, I strongly oppose the designation of this to become wilderness without a non-motorized travel corridor established on trails surrounding Heart Lake. This is one of very few true back country mountain biking options with a storied history, and summer bike travel would be a tremendous recreation opportunity.

Regarding Carlton Ridge to Mill Creek on Lolo Peak, I support the recommendations for the Lolo Creek Geographic Area as these trails will remain open to bikes.

Regarding Cube Iron Roadless Complex, I strongly support recommendation for a backcountry designation in this area which will maintain primitive characteristics while allowing for bike access.

Greater Missoula: Rattlesnake, Deep Creek, Petty Mtn - we are very supportive and appreciative of these efforts for greater growth and connectivity in the national forest in these areas.
