Title:

Comments: I am an avid outdoor person in Missoula. When I go to a forest area, I am often on skis or a mountain bike. In the future, as I move through my 60's, I am likely to be on an Electric assist bike (E bike). I would love to see intentional mountain bike trails made available for public use, including trails for E bike users. I feel well designed trails would not impact the landscape or foliage. I feel like there would be minimal impact on wildlife if multi-functional trails for both hiking and biking were available.
