Comments: I have ridden the trails up there, love them. Please do not take the trails away from the equestrians. Horses and bikes, both motor and pedal do not mix. Motorcycles go to fast and make to much noise, the mountain bikes go to fast and do not make any noise, therefore put the horse and rider in a scare or flee situation. Not desirable for most equestrians. Let the motorized vehicles go and work as hard as equestrian people have done, to get and maintain these trails. Hikers usually are not a problem as long as they understand that horses do not always "move over" while on trails. They are taught to stay on the trails.
