Comments: I strongly oppose the proposed Telephone Gap logging project. Project of this type and scale will do huge damage to the National Forest. The natural habitat that I love and respect will be wiped out for some outdated ideas of forest management. We need all the trees and wildlife we have left! I have seen what happens to land after these projects as this was just executed in an area in my town of Goshen. Please reconsider and let the forests be the refuge they are for man and animal!
