Title:

Comments: I strongly oppose Wilderness Designation in the Heart Lake Loop area without a non-motorized travel corridor established on trails surrounding Heart Lake. We otherwise support the action to achieve large landscape conservation goals via the Great Burn Recommended Wilderness. We request that the Nez Perce-Clearwater and Lolo NF align their mgmt policies.

Also, I support the recommendations for the Lolo Creek Geographic Area.

I strongly support recommendation for a backcountry designation in the Cube Iron area which will maintain primitive characteristics while allowing for bike access.

I also support the BCSA as was drafted via coalition and submitted by Senator Tester for congressional action. This provides mountain bike access on Center Ridge and creates trail development potential into the Otatsy Lake Area.

I appreciate and support the progressive actions for the Greater Missoula Geo-Area as they are aimed at improving access and connectivity both to and within the forest. We continue to remain hopeful that the user-created trail system accessed via Dry Gulch Road will transfer to public ownership and offer additional trail-based recreation.
