Comments: Dear Lolo NF,

Regarding the State line trail near Heart Lake: I oppose the wilderness designation that will close the state line trail to summer bike access. The recently released plan from the Nez Perce-Clearwater NF recommends the Stateline Trail be managed to allow summer bike travel. I urge the Lolo NF the portion of the state line trail on the Lolo NF in the same way to keep this historic high alpine ride open to non-motorized bicycle use.

I support the management plan for the Lolo Creek area and the Cube Iron Roadless Complex that preserve primitive characteristics while allowing bike access.
