Title:

Comments: I value the opportunity to mountain bike in many of the areas under the plan revision. Below are a few areas that are particularly important to me. Thank you for the opportunity to comment.

Heart Lake Loop, near Superior

Due to permanent loss of access, I oppose these trails being recommended for a Wilderness designation unless a non-motorized travel corridor is established as was recently recommended for the adjacent Stateline Trail managed by the Nez Perce-Clearwater National Forest.

Carlton Ridge to Mill Creek, on Lolo Peak

I support the recommendations for the Lolo Creek Geographic Area as these trails will remain open to mountain bikes.

Cube Iron Roadless Area, near Thompson Falls

I strongly support the recommendation for a Backcountry management designation in this area which will maintain primitive characteristics while allowing for mountain bike access.
