Title:

Comments: The Eagle Vail Trail extension will be a critical addition to the Avon area trail system. It will allow for a safer, more enjoyable, and more sustainable singletrack route through the Eagle-Vail area. A proper, legal system trail here will provide expanded in-town recreational opportunities and allow trail users to connect the trail loops starting at the Beaver Creek base area without having to use unsustainable social trails or ride along US 6. I strongly urge USFS to efficiently work out approval for this trail ROW, and I look forward to helping build it.

Andrew Ryder, Edwards
