First name: Aaron

Last name: Kennedy

Organization: Outway Inc

Title: CEO

Comments: Community connector trails like this are absolutely incredible for supporting local economies and nature. With rising outdoor recreation and tourism to the area, these trails would serve as amazing ways to bring together our Avon and support our small businesses. Providing access right out of the gate lets the town capture the visitor journey, be it with a cup of coffee before the hike or a beer after one; these capture points build sustainable communities. Protecting nature is invaluable, and this way, the town can continue to generate season-round tourism revenue by protecting nature.

Please continue to approve the trial project!
