Comments: I support the expansion of trails for cross-country skiing, and parking opportunities on the Montana side of Lolo Pass. Trail use has increased considerably, and this high altitude skiing provides more consistent, recreational opportunities as the climate appears to be warming.

I also support moderate expansion of Parking at Patty Canyon recreation area as this area has seen a dramatic increase in use in the past few years.

Blue Mountain recreation area is seeing dramatic increase and use and trail widening/erosion. Better signage on not to use trails when they are very muddy and to stay on the trail would be useful, or perhaps some other , more expensive trail mitigation measures are appropriate at this time.

Thank you very much for considering these comments.
