Comments: Thank you for the consideration to expand the EagleVail Trail to the West. This will provide additional options to recreate in the area lessening the current load on the popular EagleVail trail. With the increase length of the trail, please consider trailhead parking or how an increased need for parking will impact the Grouse Court, Whiskey Hill and other neighborhood entry points along the system.

Please also consider adding these new miles to our community without removing/swapping/decommissioning any existing/current trails.

Thank you for the hard work put into this project up to this date and in the future.
