Title:

Comments: I am writing to support 1) designation of roadless areas to wilderness status and 2) continued promotion of low impact recreation in the Lolo NF. Regarding Wilderness, I support protection of the Great Burn area. We commonly hike and backpack in the Great Burn and with further human related pressures, it's timely to finally protect these areas. Regarding low impact recreation, I support expansion of cross country skiing, specifically increased grooming at Lolo Pass. I also support trail maintenance for hiking, skiing and mountain biking.
