First name: Asha

Last name: Kannan

Organization:

Title:

Comments: My name is Asha Kannan, and I am a Middlebury College student. I am co-managing the Sunday Night Environmental Group, an environmental advocacy club. We are working to preserve old growth forests in Vermont and take measures against deforestation. I am writing today to express concern for the Telephone Gap project and ask you to consider the detrimental impacts that mass logging has on the environment. Vermont is a place that prides itself on its commitment to environmentalism and natural landscapes, and logging at this scale goes against all of these values.
