First name: Clare

Last name: Hefferren

Organization: Callosum

Title: CEO

Comments: I am in favor of the completion of the Eagle Vail Trail extension as an effective way for transit and recreational usage. As full-time Eagle County resident of 17 years I have spent endless time on the Eagle Vail trail and over the years the need for time in nature has increased exponentially. It is proven over and over again the power of nature to heal - help fight depression, isolation, suicidal ideation, and a sedentary lifestyle by increasing the distance one can travel without a car.

Less car traffic/accidents/pollution.

More healing and inspiration with nature's dopamine

My purpose is to advocate for more humans to get outside to heal and be inspired. Let's connect our communities. Thank you for your consideration.
