Comments: Hello,

I would support Nordic ski trail grooming from Lee Creek Campground to the State Line to connect with the Lolo Pass ski trail system.

I again urge your attention to urban trailhead facilities conditions. I mean to pump out and add water to the toilet vaults. Paint the inside of the toilets as per specs using 2 part epoxy paint, hiring painting contractors. I urge you to prioritize urban trails for drainage control. Examples are the Blue Mountain Main Trailhead and Crazy Canyon Trailhead parking lots. They are filling up with sediments from the trails every time it rains hard.

Do not motorize the Great Burn or the Stateline Trail.

Follow the Rattlesnake LAC Plan of 1992.

Allow Nordic ski trail grooming in the Rattlesnake corridor.

Support Nordic ski trail grooming on the entire Seeley Lake R D , outside Wilderness.
