Comments: Could there be a day where you could ride/run/hike a world-class trail from Beaver Creek to Vail without touching pavement? Well this trail is inline with, what seems to be, a very far-fetched dream. If not for that, imagine this loop: Elkhorn > Village to Village > Allie's > Paulie's > EagleVail Trail back to your car in the Elk Lot. Makes me wanna bugle!

It's pretty incredible how two developments are leading by example with CIMBYism: "C'mon In My Back Yard!". I can only imagine the amount of work it took VVMTA to help gather so many different entities, people, municipalities, personalities, opinions, etc. to come together and create this beautiful trail. I could not be more in favor of this and look forward to the prospect of this trail creating a legacy for decades to come. Thanks VVMTA!
