Comments: I fully support the Eagle-Vail to Avon MTB trail extension project. This project would eliminate having to use the bike path to get back to town after riding beaver creek and minturn bike trails (fun level increases).

This plan has been years in the making and it's time to make it happen. This trail extension project would also benefit hikers/dog walkers. It would be another way for anyone to get to other towns and neighborhoods which could reduce car dependency and carbon emissions. When people feel safe to walk and bike to get to places, they are most likely to do so. Thank you for your time.
