Comments: Hello,

I'm writing this in protest of the Telephone Gap timber sale which is set to cross through and damage 12,000 acres of the Green Mountain National Forest. Given that the GMNF has many forest areas that grew back in the late 19th century and is thus one of the oldest areas of secondary regrowth in the eastern part of the United States. Given that the Biden administration desires to protect "Climate Forest" (old-growth and mature forests), the Telephone Gap timber sale needs to be cancelled.
