Comments: The Lolo National Forest lacks groomed nordic ski opportunities in places where snow is consistent. Gold Creek has consistent snow and plenty of opportunities to support a groomed nordic ski trail network. In order for users to access groomed trails up the Gold Creek drainage, we need road access up 1.7 miles of East Fork Rattlesnake/FS 2112 Road from the intersection with Gold Creek Road. We hope the Forest Service will support us in establishing trail access in this area as a future climate-safe area for nordic skiing.
