Comments: As a Missoula resident, I'd like to see more infrastructure (i.e., parking) at Pattee Canyon Rec Area for cross-country skiers, because more folks are skiing and the ski areas in town aren't getting much snow these days, pushing more skiers to Pattee.

I'd also like to see additional XC ski trails--for all ski levels--at higher elevations at Pattee and the Mt. Dean Stone area, which should be more reliable for sufficient snow. I would imagine we'd need more parking, etc., infrastructure there also.

I would also like to see more XC ski trails--for all ski levels--in the Lolo Pass area, since that area still has sufficient snow when areas in and around Missoula do not.

Thank you.
