Comments: I am opposed to the proposed western extension of the EagleVail Trail. The west end of Eagle-Vail is the only undeveloped area without designated trails for our wildlife. Furthermore I do not believe this proposed western extension would be utilized by our community's residents, as much as it is a marketing effort by Frontgate and new Beaver Development to say that they have forest service access to sell their real estate. Having a public hiking trail in this area would result in trespassers attempting to find shortcuts thru our property, and their noise and disturbances would result in a significant impact on our peaceful enjoyment of our property and those who live in the west end of Eagle-Vail.
