Comments: Please allow MTN biking to exist on as much of Lolo National Forest Plan Revision as possible. i love this place and love it even more by bike. This is amazing riding in the high alpine and I respect how it has been managed from a proposed wilderness area. All these areas you are considering to have open to summer bike travel are a win, win. These designations ensures offer crazy beauty by bike, opportunities for huge mtn bike rides, and a recreation outing that is like no other. I love 313 the most and want to be able to ride my bike on it. Thanks. Mike Birnbaum
