Comments: This comment is on behalf of Wildridge Trail Coalition. We, as a Board, fully support the expansion of the Eagle-Vail Trail. Access to high quality, sustainable trails benefits our community in many ways. It enhances the mental health and well being of our community members, increases our property values and provides a better experience for our guests. Our valley benefits greatly from tourism and access to the outdoors is what drives that. This plan is well thought out and also beneficial to wildlife as it will cut down on the number of social trails in the area.

Thank you for your consideration.
