Title:

Comments: We need to open or keep more areas open for OHV and snowmobile riding areas. I believe we have enough wilderness so do not need any new RWAs. We snowmobile gold creek area and SeeleyLake areas that have been recommend to an RWA. Fish Creek area needs to coordinate the plan with FWP and the state of Montana. We need to coordinate with Nez Pierce national forest and manage our Forests together not individual. National forest are suppose to be for public use please keep them open for all users.
