First name: Fred

Last name: bailey

Organization: Montana Snowmobile Assoc

Title: President

Comments: Although I have not recreated in the LOLO National Forest for many years, many of my friends and fellow recreationists commonly enjoy this forest. Though I can not speak to specific names I can speak to specific actions of this plan. This plan is intended to fix things that are not broke, wildlife numbers are in many cases greater than ever and thriving. And yes motorized user numbers are increasing but with more and more closures you are forcing more impacts by concentrating users into smaller areas. With the ever growing trend of side X sides over 4 wheelers there are far less tires on the ground, many of families purchase side x sides so that they only need one machine with four tires rather than a machine for each member requiring up to 16 or even 20 tires, thus impacting the environment much less. We know preference by the FS is not for motorized use but please consider our form of recreation as a valid use of the forests.
