Title:

Comments: Hi my name is Jason Lowell

I want to thank you for your ongoing hard work on the telephone gap project.

I am a 3rd generation logger and director for VFPA. My father and uncle cut timber in Granville gulf 40 yrs ago.

I think people need to remember when FDR created national forests it was meant for multiple uses and the timber harvesting has done nothing but decline .

We need more early successional forests for wildlife.

I think the project is great and should move on as planned.

Thank you Jason
