Comments: I have lived on Rattlesnake drive my entire life. [69 years] I feel we are loving our area to death. The motorized criteria which is on the table makes no sense to me. We have already maxed out available parking in the main trailhead. People are now being overflowed and are parking all along Rattlesnake dr. We don't need more traffic added to this area. I think we should put our efforts into a larger parking lot at the main trailhead.

There's nothing worse than enjoying a nice long quite walk to have someone on a motorized vehicle come racing come by.

Thanks.
