Comments: As a lifelong snowmobiler in the Mount Baker area I believe the mountain and trails and huts should be open to the public. Privatization of some huts in the Mount Baker area benefits only a small group of people. These areas should be open for everyone to enjoy. Our local snowmobile club the NW Glacier Cruisers does a great job stocking and providing the area with nice huts open to everyone who passes through. Making any hut in the backcountry private just feels wrong and leads down a road of privatization where enjoyment is limited to the amount of money you can spend.
