Comments: While this proposal will no doubt bring more (and new) people to the area, it will come at a cost. There will be increases in everything associated with adding people to the area... more traffic, more wear and tear on facilities, crowding, more noise, more littering... sharing is usually a good thing, but it shouldn't be done if it will only benefit a few while harming everyone else's enjoyment.

I am opposed to this. Especially the idea of any privately owned facility on public property.
