Title:

Comments: Please do not log and sell timber from the almost 12.000 acres in the Green Mountain Forest known as the Telephone Gap. The State of Vermont and the United States of America owes it to the citizens of the state and the nation to forgo short term profits when considering the management of mature forest land. We are all participating in the global temperature change and loss of biodiversity. Decision makers at the US Forest Service: as land stewards, listen to your constituents! NO TO LOGGING THIS LAND PARCEL!
