Title:

Comments: As a nordic skier I would like to request consideration of the following for the Lolo Forest Land Management Plan Revision:

- 1) Nordic skiing grooming access on the Montana side of Lolo Pass between Lee Creek Campground and Lolo Pass.
- 2) Increased nordic skiing grooming access in the Pattee Canyon area: higher elevation areas on the Dean Stone Ridge, USFS lands and roads to the west and southeast of the current approved grooming area at Pattee Canyon.
- 3) Road access up 1.7 miles of East Fork Rattlesnake/FS 2112 Rd from the intersection with Gold Creek Rd. in order to access trails groomed in the Gold Creek Drainage.
- 4) Improved and expanded parking infrastructure at Pattee Canyon
- 5) Including nordic skiing specifically when discussing "opportunities for competitive and noncompetitive events"

Thank you
