Comments: Hello, my names is Thomas Brady and I'm writing to voice support for a backcountry designation for management of the Cube Iron Roadless Complex so that mountain bikers can continue to access this beautiful and unique area of the Lolo National Forest.

I also feel it is important to maintain a corridor for bike access to the Heart Lake Loop, and as the Stateline Trail passes through the Heart Lake trail network and is being included in future protection, it only makes sense to include the Heart Lake network in those trails that will allow bike access.

Thank you
