First name: Jake

Last name: Cunavelis

Organization: Mt. Mansfield Media

Title: President

Comments: My company recently produced a documentary on forestry in Vermont. it is clear that we need to support the diversity of age classes, the habitat and wildlife that are supported by managing our force and creating diversity. We all not only support alternative B, but we think it's critical for the health and well-being of our forest and the habitat and the wildlife that depend on it.
