Comments: as a lifelong user of the Mt Baker National Forrest, especially Mt Baker itself, i would not want to see any permanent structures nor ever private structures allowed on the mountain. there doesn't seem to me to be any valid reasons to allow such in the national forest. As a note, my father work extremely hard to preserve this area with Mr. Jackson to keep this area open for the public to use not private use. Every year we drive up there just to clean up after people who don't care about our lands, opening a place to stay will attract more people, more vandalism, more carelessness. please say no.
