Comments: Please stop the roundup of wild horses. Please remove the cattle instead since they degrade the lands. It has been proved in Oregon that wild horses reseed the lands they graze on which helps numerous protected wildlife and the environment from wildfires. Our wild horses deserve better than to be ripped apart from their families. The foals are too young to be separated from their moms. As humans, we should be protecting animals rather than getting rid of them. Please do what is right rather than what makes the most money for you and the ranchers.
