Comments: Hello,

I am writing to oppose the idea of having a private for profit business make their mark in our public lands. I am all for sharing the mountain with those who love and are passionate for it, skiers, snowboarders, snow shoeers, snowmobiles. Once we give permission to these private for profit businesses to take over our public land, they will keep pushing. I want to share the beautiful land with my children some day and their children. Please do not let this happen!!! Please protect our public land we love and enjoy!
