Comments: In my previous comment I forgot to add that I would like to see an end to logging in all Inventoried Roadless Areas. This includes the 16,000-acre Pittenden Inventoried Roadless Area in the Telephone Gap project area. Leaving roadless areas alone helps protect un-fragmented wildlife habitat and clean water, and defend downstream communities from flooding. There is already a Roadless Rule in this country, and it isn't a good look for some roadless areas to be excluded from it on a technicality. Roadless is roadless. Let them be and follow the intention of the law. Thank you.
