Comments: I strongly support making these trails equestrian only, it is so hard as an endurance rider and equestrian camper to find good solid trails that aren't overrun with bikes. Some bikers go SO FAST and have earbuds in so they can't even hear you hollering at them before they crash into your horse. Especially now that e-bikes are taking over mountain biking, it's absolutely absurd for a "bike" to be able to go 20+ miles per hour uphill! We equestrians are getting squeezed and the trails are more dangerous and I suppose that's the way of the world, this would be a wonderful oasis where we wouldn't have to worry about our 1,000 pound flight animal harming an oblivious biker.
