Title:

Comments: I am representing Ferron Canal and Reservoir Company. I have been authorized, as a Board member, to comment on this Ferron Ranger District Rerouting Project (s).

We fully support the rerouting of the road (FR 500043) above the Meadow Gulch slide. This slide has been an obstacle for many years. Trying to cross this slide has been very difficult, especially in a pickup. Cattle trailers are almost impossible and rerouting the road will make travel for all users more accessible and enjoyable as we travel around the South Side for business or pleasure.

Because this slide is still moving, the added pressure from vehicles only causes the slide to move even faster.

The safety of all will be enhanced.

Roger Barton, Board Member

Ferron Canal and Reservoir Company
