Comments: Hello,

I appreciate the opportunity to comment on this project. I support restoration ensuring adequate water in Gold Creek. I also support and ask that recreation also remains a high priority. The local community and many other from round Washington enjoy recreation at and on Lake Kechelus as well around the Gold Creek area. I do support not allowing vehicle access on the lakebed, but want to keep the boat launch and recreation facilities open at Lake Kechelus when the water level is above the bottom of the boat launch ramps.

Please take this into consideration.

Thank you
